

Queensland Ambulance Service performance report

Our Performance

The Queensland Ambulance Service (QAS) serves over four million Queenslanders across our vast state of 1.77 million square kilometres. Our services are delivered from 295 ambulance response locations across Queensland.

The QAS reports on the demand for ambulance services by counting the number of incidents we respond to, and assesses performance by measuring response times.

Performance Measurement

Ambulance Services across Australia report information on response times in the Commonwealth Government's Report on Government Services (ROGS). This means that Queensland's performance can be compared with other states.

The ROGS report measures how quickly 50% of ambulance vehicles are able to arrive on scene (this is called the 50th percentile), and again how quickly 90% of ambulance vehicles are able to arrive on scene (the 90th percentile) for a Code 1 (life threatening) emergency medical incidents.

Ambulance response times: 2010-2011 financial year

Code 1 First Unit on Scene Response Times
Financial Year 2010 -2011
50th Percentile & 90th Percentile
