

Queensland Ambulance Service performance report

Our Performance

The Queensland Ambulance Service (QAS) serves over 4.5 million Queenslanders across our vast state of 1.77 million square kilometres. Our services are delivered from 295 ambulance response locations across Queensland.

The QAS reports on the demand for ambulance services by counting the number of incidents we respond to, and assesses performance by measuring response times.

Performance Measurement

Ambulance Services across Australia report information on response times in the Commonwealth Government's Report on Government Services (ROGS).

The ROGS report measures how quickly 50% of ambulance vehicles are able to arrive on scene (this is called the 50th percentile), and again how quickly 90% of ambulance vehicles are able to arrive on scene (the 90th percentile) for a Code 1 (potentially life threatening) emergency incidents.

Ambulance response times: 2011-2012 financial year
