

DEVELOPMENT GRANTS

DR PETER STEPHENSON OVERSEAS STUDY GRANT

CURRENTLY SPONSORED BY DR PETER STEPHENSON

In 2010 a new grant was offered for overseas study. This grant has been established in recognition of the professional clinical care rendered by QAS to Dr Peter Stephenson, a Brisbane medical specialist who was seriously injured in a farming accident.

In support of the Foundation Dr Peter Stephenson has provided a grant of \$5,000 for the professional development of Ambulance Officers. The grant provides financial assistance to attend an overseas clinical conference or similar educational activity.

The conference or activity must be relevant to paramedic practice, pre-hospital care or emergency medicine or ambulance operations, and recipients must be able to demonstrate that their attendance will help them to meet a career development objective and contribute to the knowledge base of the Queensland Ambulance Service.

This grant will be made to any Ambulance Officer for a significant contribution to the promotion or development of clinical or operational practice in ambulance services.

The grant will provide financial assistance for conference registration, fares and accommodation to attend a conference or similar activity in the pre-hospital care or emergency medicine fields.

NOTE

- The LASN Manager's signature of approval is required on an application.
- This grant may be subject to ministerial approval for overseas travel.
- The Foundation expects receipt of a copy of the international travel report required by the Department of Health. The report will also be published on the departmental intranet (QAS Portal) for access by all QAS personnel.
- The recipient is required to give a report of their educational experience at the annual KJM Patron's Day Clinical Symposium.

All forms can be downloaded here <https://www.ambulance.qld.gov.au/KJM.html>.
