

RESEARCH GRANTS

QAS RESEARCH & DEVELOPMENT GRANT

CURRENTLY SPONSORED BY SPECTRUM DATA SYSTEMS INTERNATIONAL

The Research and Development Grant is offered to assist in developing research interests of QAS Uniformed Personnel. It is intended to encourage one or more paramedics to undertake a short but well defined piece of research that will be used to inform development of QAS policy or to improve practice.

Innovation and the contemporary nature of the research are critical criteria for achieving recognition in this category.

This grant may be presented to any Ambulance Officer who has proposed an idea, plan, scheme or innovation in patient care that has the potential to aid in the provision of improved Ambulance Services.

Collaborative research projects with other health services or key stakeholders are eligible when the applicant has been directly involved in designing and conducting the QAS component.

The application should include an abstract on the project and it would be expected that the format would include introduction/background, aim, methods, results, discussion, etc.

The applicant must obtain signed approval from both their relevant LASN Executive and Medical Director prior to the submission of the application. The signatures must be sought two weeks prior to the application due date.

All successful applicants will be required to submit a progress report every six months.

All forms can be downloaded here <https://www.ambulance.qld.gov.au/KJM.html>.
